

# How WHO VR Thrived with Google Drive and Google Workspace

Who VR was looking for a solution to store and access very large files, its timely upload and retrieval, to improve the efficiency of the team.

Who VR chose Webveer Automation and Service Pvt Ltd as the implementation partner for GWS implementation.

## The challenge

The company was grappling with challenges of storing and making available large-size files at a centralised location. These include 3d models, point-clouds and animation content. The retrieval as well as upload speeds of such large files are critical in day-to-day work at the company. The pain point often made the team members struggle to collaborate effectively, eventually impacting productivity.

## The solution

WHO VR adopted Google Drive and Google Workspace, revolutionizing their data management and collaboration practices. The centralized cloud storage system enabled seamless access to the files from any location or any device. Google Workspace suite of tools provided real-time collaboration accelerating the decision making processes. The platform ultimately improved productivity immensely.

## The result

The adoption of Google Drive and Google Workspace suite of products had a transformative impact on WHO VR's operations, resulting in Enhanced Collaboration due to Real-time large-size file uploads, retrievals, improved Efficiency due to the consolidation and easy access of data in Google Drive. This resulted in a stronger sense of teamwork eventually improving productivity and efficiency.

Through the adoption of Google Drive and Google Workspace, WHO VR transformed their data management and collaboration. By real-time collaboration tools and centralizing their data in the cloud, WHO VR achieved new levels of efficiency, productivity, and innovation. With data safe and easy access, WHO VR was able to focus on their mission of revolutionizing ancient knowledge with modern technology
